We talked about:

1. Our New Role of School Councillor

What we do and why it matters. We considered the positive impact we can have in our school community, the responsibility that comes with being elected, and the importance of acting as role models for others.

2. Stop, Start, Continue Activity

We took part in a *Stop, Start, Continue* activity, working together to create a list of things in school we could consider stopping, new things we could start, and the things we felt were important to continue.

The School Council would love to *start* a cupcake day and more fundraising for playground equipment, and *continue* with Mrs Pelazza's hot chocolate parties and the school's after-school clubs, amongst other suggestions.
