1. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans
- The dignity, rights and wellbeing of every child are safeguarded
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their child are taken into account
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with [statutory safeguarding guidance](#). It also complies with our funding agreement and articles of association.

3. Definitions

3.1 Intimate Care

Intimate care can be defined as care tasks of an intimate nature, associated with bodily functions, bodily products and personal hygiene, which demand direct or indirect contact with, or exposure of, the sexual parts of the body. Help may also be required with changing colostomy or ileostomy bags, managing catheters, stomas or other appliances. In some cases, it may be necessary to administer rectal medication on an emergency basis. The Surrey guidance on Supporting Pupils with Medical Conditions is in place to support staff and children and young people where nursing tasks are required. That document makes it clear that teaching staff should be under no obligation to provide nursing care, and the same applies to intimate care.

Intimate care tasks specifically identified as relevant include:

- Dressing and undressing (underwear)
- Helping someone use the toilet
- Changing continence pads (faeces)
- Changing continence pads (urine)
- Bathing/ showering
- Washing intimate parts of the body
- Changing sanitary wear
- Inserting suppositories
- Giving enemas
- Inserting and monitoring pessaries.

3.2 Personal Care

Personal care generally carries more positive perceptions than intimate care. Although it may often involve touching another person, the nature of this touching is more socially acceptable, as it is less intimate and usually has the function of helping with personal presentation and hence is regarded as social functioning. These tasks do not invade conventional personal, private or social space to the same extent as intimate care and are certainly more valued as they can lead to positive social outcomes for people

Those personal care tasks specifically identified as relevant here include:

- Skin care/applying external medication
- Feeding
- Administering oral medication
- Hair care
- Dressing and undressing (clothing)
- Washing non-intimate body parts
- Prompting to go to the toilet.

Personal care encompasses those areas of physical and medical care that most people carry out for themselves but which some are unable to do because of disability or medical need.

Children and young people may require help with eating, drinking, washing, dressing and toileting. This guidance is not prescriptive but is based on the good practice and practical experience of those dealing with such children and young people.

3. Role of parents/carers

3.1 Seeking parental permission

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the permission form (if used), an intimate care plan will be created in discussion with parents/carers (see section 3.2 below).

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (where possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

See appendix 1 for a blank template plan to see what this will cover.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

All staff may at some time be required to support with intimate care. This will be in emergency and exceptional circumstances.

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

4.2 How staff will be trained

Staff will have read:

- Intimate Care policy and risk assessment
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

5.1 How procedures will happen

2 members of staff will be present. One to carry out intimate care and one to oversee.

Procedures will be carried out in a cubicle in the KS2 toilets.

When carrying out procedures, the school will provide staff with the following: protective gloves, cleaning supplies, changing mats and bins.

For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, wipes, underwear and/or a spare set of clothing.

Any soiled clothing will be contained securely, clearly labelled and discreetly returned to parents/carers at the end of the day.

5.2 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the Designated Safeguarding Lead or if they are not on site, a Deputy Safeguarding Lead.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

6. Monitoring arrangements

This policy will be reviewed by the Senior Leadership Team annually. At every review, the policy will be approved by the headteacher.

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEND
- Supporting pupils with medical conditions
- Surrey Intimate Care and Toileting Guidance 2017

Appendix 1: template intimate care plan

		
INTIMATE CARE MANAGEMENT PLAN		
Child's Name:	Date of Birth:	Additional Needs:
Details of Intimate Care Required:		
How often care will be given		
Where care will take place		
What training staff will be given		
Equipment (Clarify responsibility for provision of supplies, eg parent/carer/school/other):		
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan		
Arrangements for Trips/Transport:		
Name of parent or carer		
Relationship to child		
Signature of parent or carer		
Date		
Date for Review:		

Appendix 2: template parent/carer consent form

	
PERMISSION FOR SCHOOL TO PROVIDE INTIMATE CARE	
Name of child	
Date of birth	
Name of parent/carer	
Address and contact details	
I give permission for the school to provide appropriate intimate care to my child (e.g. changing soiled clothing, washing and toileting)	<input type="checkbox"/>
I will advise the school of anything that may affect my child's personal care (e.g. if medication changes or if my child has an infection)	<input type="checkbox"/>
I understand the procedures that will be carried out and will contact the school immediately if I have any concerns	<input type="checkbox"/>
I do not give consent for my child to be given intimate care (e.g. to be washed and changed if they have a toileting accident). Instead, the school will contact me or my emergency contact and I will organise for my child to be given intimate care (e.g. be washed and changed). I understand that if the school cannot reach me or my emergency contact, if my child needs urgent intimate care, staff will need to provide this for my child, following the school's intimate care policy, to make them comfortable and remove barriers to learning.	<input type="checkbox"/>
